COVID-19 Update

To Our Spray For Life® Family:

At SPRAY FOR LIFE®, we thank you for allowing us to assist you with your health needs, especially in this time of crisis. During these trying and uncertain times, we just wanted to reach out and let you know we are still here for you. During the writing of this letter, all our products are fully stocked and we are taking extra precautions to ensure your safety, which is our utmost importance.

Conversely, our shipping facility is spotless, sanitized and clean as always and we are still fulfilling online orders as quickly as possible. We have plenty of your favorite products in stock as well as immune products that are currently in high demand, such as your Spray For Life® Vitamin D3 and Spray For Life® Vitamin C + Zinc.

We know you're probably tired of hearing about COVID-19, but we would be remiss as a wellness company if we didn't remind you to please follow recommended hygiene guidelines, which have been issued by the CDC. [Click here to view](#). This may save lives.

Beyond that, Spray For Life®, stay healthy, drink plenty of water, make sure you get at least 8 hours of sleep each night, eat nutritious foods and stay active, even if it's an in-home workout. We've got this!

We are all in this together and we will all get through this together. When we look back on this one day, we hope we can all say we were strong, we were compassionate, and we didn't give up.

To you in great health,

Your Spray For Life® Team
